

## **PHYSICIANS LIST**

(Updated December 2015)

The majority of Egyptian physicians are English speaking and many have studied in the United States or Europe. The better hotels have house doctors available at all times. However, should medical attention be required, the following list of doctors and hospitals may be of use.

The Embassy assumes no responsibility for the professional ability of the persons whose names appear in the list. The specialties are arranged alphabetically and the order in which they or the names of the doctors appear has no other significance.

Doctors marked with (\*) were **educated** in the United States while doctors marked with (#) are currently **licensed** and (\*\*\*) **able to write prescriptions for use in the United States.**
